

DX-CD2™

[Permanently Destroys Digital Information on CD-ROMS - Beyond Forensic Recovery!]

You can't destroy 21st Century electronic data with 20th Century technology

If you manage a corporation or government agency, you may bear far more personal responsibility for the protection of electronic data than you realize. The Economic Espionage Act, the Gramm-Leach-Bliley Act and HIPAA regulations all require the proper disposal of digital records and impose serious penalties for failure to do so. Unfortunately, eradicating electronic data beyond forensic recovery is not as simple as you may think. Traditional methods such as dimpling, shredding and disintegration leave anywhere from 15% to 100% of digital data in recoverable form. That's where the DX-CD2™ Data Destroyer comes in. This premium device deploys patented technology that grinds the data layer to 250 microns - beyond forensic recovery. All data is eliminated completely and permanently.

SPECIFICATIONS

Information layer ground to 250 microns
Average operation time per disc: under 18 seconds
Weight: 2.5 kg
Height: 110 mm • **Width:** 232 mm • **Length:** 255 mm
Cost per disc: < \$.01
Power Supply: 110 volts, 60Hz, 65W

Specifications subject to change without notice

OPTIONS Manual DVD Splitter

- MEETS NSA REQUIREMENTS: Evaluated by NSA and meets the requirements of NSA/CSS Specification 04-02 for Optical Media Destruction Devices.
- Meets NIST SP 800-88 standard for Optical Disc Destruction
- HIPAA, FACTA, Sarbanes-Oxley and Gramm-Leach-Bliley compliant
- Meets the requirements of the RCMP for listing in the G1-001 Security Equipment Guide as an approved device for the destruction of all classified and Protected information on optical media
- PATENTED TECHNOLOGY: US and PCT Patents and Pending Patents.
- FAST OPERATION: Under 18 seconds per disc.
- EASY TO USE: Push button operation

DX-CD2™ Second Generation DX-CDe Destruction Device

This product is designed with the high-security sector in mind and follows the high quality standards we have used for the past few years in our Department of Defense (DoD) product line. The DX-CD2™ is lightweight, quiet enough for an office environment, safe, clean and inexpensive to operate. For less than \$0.01 a disc, your organization can be assured that your digital information has been permanently and safely destroyed. With the looming liability imposed by the Economic Espionage Act, the Gramm Leach Bliley and HIPAA regulations, any person or company that does not properly dispose of digital records faces a major liability. Join the thousands of customers who sleep at night knowing their digital records are no longer in use and can never be used again.
